

IJL PhD Students' Seminar

Tuesday, 7th December 2021, Amphi 200

- 2 pm** Institut Jean Lamour at the national, european and international scales
Thierry Belmonte
- 2:20 pm** 101 - Spintronics and Nanomagnetism - **Maxime Verges**
102 - Surfaces and Spectroscopies - **Bodry Tegomo Chiogo**
201 - Plasmas, Processes, Surfaces - **Corentin Tusch**
202 - Functional Thin Films for Energy Applications - **Rabita Firdaus**
- 3 pm** 301 - Process Metallurgy - **Julien Banos**
302 - Solidification - **Ivan Cazic**
401 - Nano-Bio-Materials for Life - **Bertrand Guibert**
405 - Micro and Nanosystems - **Pierre Jeltiri**
104 - Nanomaterials for Optoelectronics - **Pambiang Abel Dainone**
204 - Materials with Thermoelectric Properties - **Adèle Léon**
- 4 pm** **Tea / Coffee Break with Pastries** 
- 4:30 pm** 205 - Carbon-based Materials - **Loris Raspado**
206 - Surface and Interface, Chemical Reactivity of Materials - **Justine Bonnal**
303 - Microstructures and Stresses - **Mathias Lamari**
304 - Physics, Mechanics and Plasticity - **Maïté Fernandes Tronco**
103 - Intermetallic Compounds and Hybrid Materials - **Nicolas Martin**
107 - Physics of High Temperature Plasmas - **Anil Cherukulappurath Mana**
207 - Materials for Civil Engineering - **Marine Baquet**
208 - Chemistry and Electrochemistry of Materials - **Charles Petit**
Materials and Additive Processes - **Paul Lohmuller**
- 6:30 pm** Award ceremony - Members of the jury :
Caroline Barjon, Sébastien Cahen, Jérôme Emonot and Hélène Fischer
-  Cocktail for the Cénacle's Members (*registrations are complete*)
